Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/5/04 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carmen Santa Maria on 09 June 2004.

The application has been amended as follows:

Nonelected claim 19 has been canceled without prejudice.

The following is an examiner's statement of reasons for allowance: The evidence provided in the 5/5/04 amendment and response convincingly shows that one of ordinary skill in the art at the time the application was filed would have understood that

the surface roughness values recited in the specification are in microinches. The additional evidence supplied with the 5/5/04 response with regard to the reduction to practice of the claimed invention, in combination with the previously submitted 1.131 declaration and evidence provided therewith, is sufficient to show that applicants had reduced the claimed invention to practice prior to the effective date of the Warnes reference. As such, Warnes is removed as a prior art reference. As argued by applicants at pages 9-10 of the 5/5/04 response, the prior art does not teach or reasonably suggest formation of a PURE alumina layer or the use of process conditions which would necessarily result in the formation of a pure alumina layer.

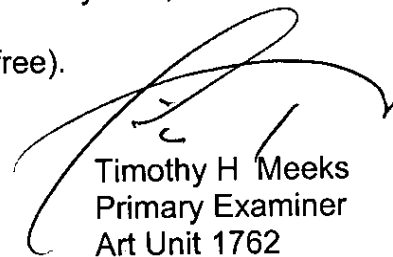

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy H Meeks whose telephone number is 571-272-1423. The examiner can normally be reached on Mon, Wed, Thur 6-6:30, Fri 6-10.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive Beck can be reached on 571-272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
